## ABOUT US

## ABOUT US

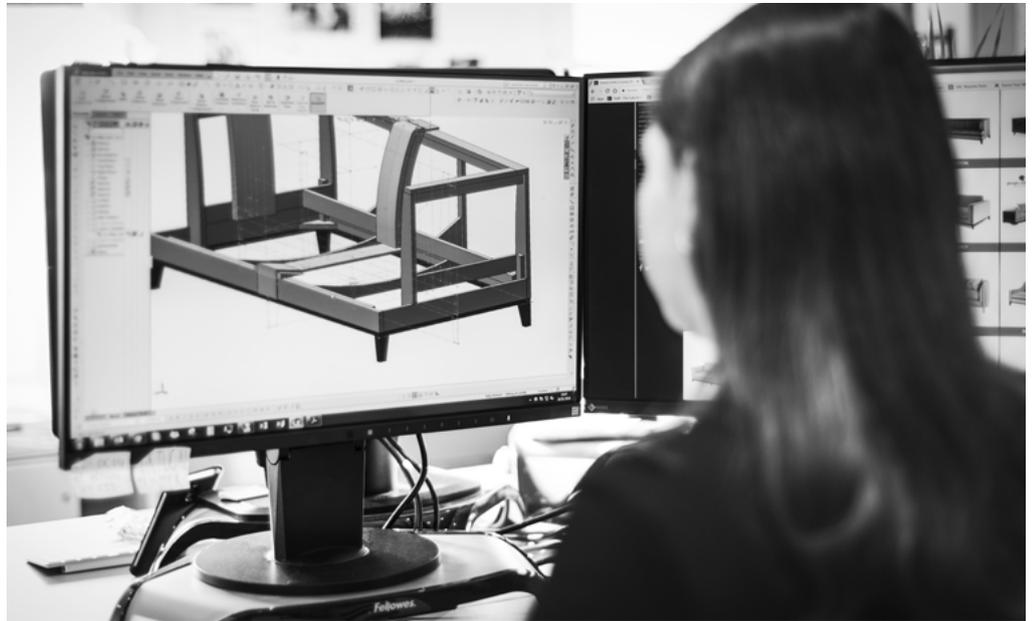

## OUR PROCESS

# Manufacturing

Our carefully refined manufacturing process ensures that every detail of a product can be tailored to your unique requirements.

### DESIGN

Our designers set to work on your piece, starting with the frame, before moving onto padding and upholstery, as outlined in the brief. Dimensioned drawings are presented to you for approval, prior to the start of production.

### WOODWORK & BODYWORK

With the approved template in hand, our skilled team of carpenters hand-carve timber to the desired shape. Foam and sprigs are also added to the frame, depending on specific requirements. An array of different fillings are then applied for maximum comfort.

### CUTTING & SEWING

With decades of combined experience, our tailoring team apply the most exquisite details and finishes to each piece. All fabrics are cut and dressed with absolute precision, ensuring that just the right amount is cut for the perfect stretch, the most precise placement or the most intricate piping.

## UPHOLSTERY

Our master upholsterers cover every piece with 100% wool felt and Dacron to ensure a luxuriously soft feel between body foam and fabric. Once this is in place the final upholstery process begins. Only a true artisan can ensure the precise placement of folds in deep buttoning or ensure consistent repeat patterns across a suite.

## OUR PROCESS

# Craftsmanship

Dedicated to fine craftsmanship, our entire luxury furniture collection is handmade using time-honoured manufacturing practices. From our master upholsterers to our apprentices, every person on our team is dedicated to their specific craft.

Our expert carpenters create frames guaranteed for 15 years, our bodywork team repeatedly sand, spray and stain until they have achieved the perfect shade and our upholsters and seamstresses will test your fabric to ensure it is cut for the perfect amount of stretch needed. It's this passion and pursuit of perfection at every stage of the manufacturing process that defines the quality and craftsmanship of our product.
